Zenitel is pleased to announce the release of VS-IS 8.0.3.0. The package contains the following software and firmware:

- VSFF8-8.0.3.0: TKIV+/TCIV+/TMIV+/TEIV+
- VSFF6-8.0.3.0: Desktop V2 / Flush Master CRM-V-2 / Cleanroom IP-CROR
- VSFT-8.0.3.0: Turbine Compact/Extended
- Zenitel IMT ver. 3.4.3.0 - Intercom Management tool for PC
- Zenitel-Client ver. 1.6.3.1 - Soft Client for IC-EDGE system

Improvements, changes, and fixed issues

For details on all changes in this and previous releases, please see the 'Release Notes' section on Zenitel Wiki: https://wiki.zenitel.com/wiki/Category:Release_notes.

Compatibility with Zenitel IMT

To upgrade devices to VS-IS 8.0.3.0 and configure them, Zenitel IMT 3.4.3.0 must be used.

Availability / Download

VS-IS 8.0.3.0 is now available on Zenitel Wiki. You can find additional resources and download the software at: <https://wiki.zenitel.com/wiki/Downloads>.

As software updates can be made available at any time, it is always a good idea to check for the latest available version regularly. To be able to download the software, it is necessary to log in with a username and password. These can be obtained by sending an e-mail to alphasupport@zenitel.com. Please make sure we can identify from the email who you are.

Your Feedback

If you have any questions related to this bulletin, please contact your local Zenitel sales representative. We look forward to further developing our cooperation in 2023 and are grateful for your continued business and support.
