INTEROPERABLE

ICX-500 Gateway

Our ICX-500 Gateway is an integrated Intelligent Communication Gateway connecting people, devices & systems at unrivaled levels of manageability, scalability, robustness and interoperability.

ICX-500 OFFERS:

Integrated Intelligent Communication Management & Security

- Streamlined and unified management
- Built-in cyber security – Trusted Platform

Scalability & Robustness

- State-of-the-art quad-core processing capacity
- Supports up to 552 IC devices per node
- Solid design with no moving parts

Interoperability

- Supports industry standards
- Multiple certified platform and device integrations
- Native API & cloud connectivity
