### Facelift Turbine Compact + Wind Protection Kit

Dear All,

We are happy to announce the introduction of new Turbine Compact design including wind protection accessory.

The new Turbine Compact design is aligned with our VINGTOR STENTOFON branding and logos. Please see drawing below to see the design changes that are implemented.

The design is valid for the following Turbine Compact variants:

All standard and analog stations will be gradually faced in from today and video stations will be faced in from September 2018.

Please note that front plates and foils used on current stations will not fit the new design.

## WIND PROTECTION ACCESSORY

In addition to the new design we are also introducing a new wind protection accessory. The accessory allows placing Turbine Compact stations in windy areas and protects microphone against wind noise. This assures good audio intelligibility in difficult environments.

The wind protection accessory is sold as kit for one TCIS/TCIV/TCAS intercom. The ordering info for the kit is:
